- a. EAP-CJCS Volumes I-IX, "Emergency Action Procedures of the Chairman of the Joint Chiefs of Staff"
- b. CJCSI 3262.01 series, "Nuclear Command and Control Staff Assessment Visit (SAV) Program"
- c. CJCSI 6810.04 series, "Nuclear Command, Control, and Communications Personnel Performance Objectives and Assessment Criteria"

1. Purpose

- a. This instruction establishes procedures for the preparation and conduct of Joint Staff CAVs.
- b. The primary purpose of the CAV program is to assist commands in developing training programs and self-assessment methods in support of executing their nuclear command, control, and communications (NC3) responsibilities as specified in Emergency Action Procedures of the Chairman of the Joint Chiefs of Staff (reference a and c) and associated procedures.

2. Superseded. This instruction supersedes CJCSI 3263.01C, 20 November 2011

3. Applicability. This instruction applies to all National Military Command System (NMCS) command centers, combatant commands, and other organizations that are subject to SAVs per reference b, pgs A-10, 11.

4. Policy

- a. CAVs may be requested by any NMCS command center, combatant command, or other organization subject to Joint Staff SAVs per reference b. CAVs may also be directed by the Joint Staff to provide focused training on

significant changes in NC3 tasks, policy, or procedures.

b. CAVs offer outside expertise to deliver focused assistance and training to address specific operational issues. In addition, CAV teams will assist the requesting staff's training division and conduct a review of all training plans, records, and local training directives. CAVs are not intended to provide routine preparation for SAVs.

c. CAV teams will be tailored to meet the specific objectives of the requesting organization. CAV teams will consist of NC3 personnel who are subject matter experts (SMEs) in the requested functional areas. The baseline team consists of a team chief, a CAV coordinator, emergency actions SME, and communications SME. The team chief duties may be executed by a senior member of the team. Augmentation to the baseline team provides expertise in other areas such as strike advisor, positive control material, surveillance, national conferencing, and the Nuclear Planning and Execution System. Accordingly, the following commands and organizations are requested to make personnel available for CAV duty:

(1) NMCS command centers, combatant commands, and organizations subject to SAVs under reference b, pgs A-10,11.

(2) The Joint Staff National Military Command Center (NMCC) Operations Teams (OTs). OT participation will be dependent on OT manning, the current operational situation, and approval of the deputy director of operations of the specific OT.

d. A formal written report will be provided to the command center director (O-6 level) and the applicable training and evaluation offices. Upon request, the CAV team is authorized to out-brief higher levels of command up to the Combatant Commander.

e. CAVs will normally be scheduled at the beginning of the fiscal year, from October to early December. CAVs will not be scheduled during the SAV season. CAVs will also not normally exceed 2 working days. To minimize battle staff scheduling disruptions, every effort will be made to minimize the time personnel are detailed to a CAV team.

5. Definitions. None.
