UNDISTRIBUTED REDUCTIONS BASED ON
HISTORICAL UNDEREXECUTION

Both the House and Senate recommend execution reductions to the operation and maintenance accounts. The House's adjustment is based on the Government Accountability Office's analysis of historical budget execution trends. The Senate's adjustment is based on the historical difference between the request and obligations for restoration and modernization, citing data that the execution of appropriated funds was significantly different than what was requested for certain budget line items. Since the issues behind these recommendations are so similar, the recommendation includes an undistributed reduction to each of the operation and maintenance accounts based on historical underexecution. This reduction shall be applied to any budget line item with the exception of Facilities Sustainment, Restoration and Modernization lines.

FINANCIAL IMPROVEMENT AND AUDIT
READINESS

It is concerning that the Department of Defense is not placing enough emphasis on improving financial management processes, internal controls and audit readiness capability. The Department should continue to develop and implement the Financial Improvement and Audit Readiness (FIAR) plan to correct financial management deficiencies and meet audit readiness objectives. Such actions would likely result in significant programmatic savings, increased efficiencies, and an improved ability to properly spend and account for the Department's critical assets and resources. The recommendation supports the Department of Defense's FIAR planning and financial improvement programs.

OPERATION AND MAINTENANCE
REPROGRAMMINGS

The recommendation includes a provision identical to the provision enacted in fiscal year 2009 that requires the Department to submit the DD Form 1414, Base for Reprogramming Actions, for each of the fiscal year 2010 appropriations accounts within 60 days after the enactment of this Act. This provision prohibits the Department from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and the Senate Committees on Appropriations.

With respect to the Services' operation and maintenance accounts, the Department shall submit prior approval reprogramming requests to the congressional defense committees for proposed transfers of funds in excess of \$15,000,000 to or from the levels specified for budget activities. In addition, the Department shall follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 out of the following budget sub-activities:

Operation and Maintenance, Army:
Land Forces Depot Maintenance
Operation and Maintenance, Navy:
Aircraft Depot Maintenance
Ship Depot Maintenance
Operation and Maintenance, Marine Corps:
Depot Maintenance
Operation and Maintenance, Air Force:
Air Operations Depot Maintenance
Mobility Operations Depot Maintenance
Basic Skills/Training Depot Maintenance
Logistics Operations Depot Maintenance

In addition, the Department shall follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 into the following budget sub-activity:

Operation and Maintenance, Army National Guard:

Other Personnel Support/Recruiting and Advertising

Further, the Department shall provide written notification of cumulative transfers in excess of \$15,000,000 from the following budget sub-activities:

Operation and Maintenance, Army:
Maneuver Units
Modular Support Brigades
Land Forces Operations Support
Force Readiness Operations Support
Base Operations Support
Facilities, Sustainment, Restoration and Modernization
Operation and Maintenance, Navy:
Facilities Sustainment, Restoration and Modernization
Operation and Maintenance, Marine Corps:
Facilities Sustainment, Restoration and Modernization
Operation and Maintenance, Air Force:
Primary Combat Forces
Combat Enhancement Forces
Combat Communications
Facilities Sustainment, Restoration and Modernization

With respect to Operation and Maintenance, Defense-Wide, proposed transfers of funds to or from the levels specified for defense agencies in excess of \$15,000,000 shall be subject to prior approval reprogramming procedures. In addition, the Department shall provide written notification of cumulative transfers in excess of \$15,000,000 or 20 percent, whichever is less, from the following line items identified in the Operation and Maintenance, Defense-Wide project level table contained in this Act:

Defense Legal Services Agency
Office of the Secretary of Defense:
Acquisition, Technology, and Logistics Programs
Personnel and Readiness
Comptroller and Chief Financial Officer
Under Secretary of Defense (Intelligence)
Under Secretary of Defense (Policy)
Director, Program Analysis and Evaluation

Assistant Secretary for Defense (Networks and Information Integration)

A congressional interest item contained in Operation and Maintenance, Defense-Wide is defined only as a specified increase provided in this Act.

OPERATION AND MAINTENANCE BUDGET
EXECUTION DATA

The Secretary of Defense is directed to continue to provide the congressional defense committees with quarterly budget execution data. Such data should be provided not later than 45 days past the close of each quarter for the fiscal year, and shall be provided for each 0-1 budget activity, activity group, and sub-activity group for each of the active, defense-wide, reserve and National Guard components. For each 0-1 budget activity, activity group, and sub-activity group, these reports shall include: the budget request and actual obligations; the Department of Defense distribution of unallocated congressional adjustments to the budget request; all adjustments made in establishing the Base for Reprogramming (DD Form 1414) report; all adjustments resulting from below threshold reprogrammings; and all adjustments resulting from prior approval reprogramming requests.

FEDERAL GOVERNMENT CONTRACTING
PROCEDURES

Section 811 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84) included a provision amending Federal government contracting procedures for 8(a) Native American sole source Federal contracts. The provision requires that any 8(a) Native American contracts in excess of \$20,000,000 will now be subject to an additional level of review through the Justification and Approval process. The effect that

this additional requirement will have on the efficiency of the contracting process and the competitiveness of Native American companies is unknown. Therefore, the Secretary of Defense is directed to submit a report 90 days after the implementation of the new contracting procedures. This report shall detail the impact of the provision on the selection of Native American companies for large dollar contracts; discuss how the provision is affecting the contracting process, whether an excessive administrative burden has been placed on contracting personnel; and provide recommendations for how the provision can be amended to mitigate any unintended negative consequences.

MILITARY TIRES

As part of the Tire Commodity Management Privatization initiative, undertaken in compliance with the Base Realignment and Closure Act of 2005, the Department of Defense shifted responsibility for tire supply, storage, and distribution from the Defense Logistics Agency to a contractor who would be in charge of procuring and distributing all ground and air military tires worldwide for the Department and the military services. It is recognized that the intent of this initiative was to lower costs and streamline the process of getting tires to the warfighter and that the current prime contractor has exceeded expectations. However, having a tire manufacturer as the manager as well as the vendor creates a perception of a lack of competition.

The Secretary of Defense is directed to award new military ground vehicle and aircraft tire management contracts when the existing base contract expires. The new contract should prohibit any tire manufacturer from acting as a prime contractor for the management of the contract. The existing Navy aircraft tire contracts are exempted provided the Department of the Navy certifies that these contracts represent the best value to the government.

INFORMATION OPERATIONS

The Department of Defense must improve both budgetary and policy oversight of its strategic communications and information operations programs. The Department's leadership has only recently become aware of the variety, scope, and magnitude of funding associated with these programs across the services and at all levels within the combatant commands. Fiscal year 2010 Department of Defense budget justification materials provided to the Congress initially indicated the request included nearly one billion dollars across the Department of Defense and within the services for information operations programs. However, after the congressional defense committees made several inquiries during the budget review process, it was determined by the Department that the budget request for these activities was actually \$626,200,000 for fiscal year 2010, \$360,000,000 less than originally indicated.

As part of its own efforts, the Department has improved its ability to account for the vast sums of dollars that have been spent on these programs in the past, and those being requested in the current budget submission. However, throughout the budget review process of the House and Senate Appropriations Committees, repeated questions to the Department about the execution of appropriated funds and the proposed use of requested funding were too often answered with varied responses or admissions of uncertainty. The Congress cannot be expected to continue supporting programs which lack accountability and clear direction.

The Department of Defense should formulate, coordinate, operate and account for its strategic communications and information operations programs within an enterprise-

wide architecture. This should include designating an individual or individuals with authority to ensure that the programs support national security policies and strategies, that they are properly coordinated with other government departments and agencies, and that appropriated dollars are obligated, expended, and accounted for in accordance with the intent justified and communicated to the Congress, and for the purposes appropriated. In this regard, the recommendation concurs with the reporting requirement included in the National Defense Authorization Act for Fiscal Year 2010 regarding the Department's efforts to develop enterprise-wide oversight and coordination mechanisms for military strategic communications and information operations programs. This report should also include an evaluation of proposals to establish or empower an office within the Secretary of Defense with Executive Agent authority over military strategic communications and information operations programs.

The Congress has a need for better budget justification and execution documentation for congressional oversight of information operations program funds. The classified annex to the Supplemental Appropriations Act for Fiscal Year 2009 included a reporting requirement on Department of Defense strategic communications programs. The Department should submit such a report annually with updated informative materials and

data. Accordingly, the Under Secretary of Defense for Policy, in coordination with the Under Secretary of Defense (Comptroller), shall submit a strategic communications and information operations programs report to the congressional defense committees not later than 30 days after the submission of the President's annual budget request to Congress. The report shall include supplemental budget justification materials for strategic communication programs to include information operations, psychological operations, and influence activities of the Department of Defense for which base budget, supplemental, or overseas contingency operation funds have been appropriated or requested over the fiscal year 2007 through 2011 period, including: program strategies, target audiences, goals, and measures of effectiveness; budget exhibits at the appropriations account and sub-activity level; spend plans (including positions and other direct costs and locations). The report shall include an annex for necessary explanatory and supporting classified information. Within this annex the Department should specifically designate, and include a comprehensive explanation of, any programs, activities, or operations where the involvement of the United States Government may be anything less than publicly acknowledged.

Finally, funding requested for United States Central Command (CENTCOM) information operations programs in Afghanistan

has grown from \$39,900,000 in fiscal year 2008, to a request of \$243,800,000 in fiscal year 2010, a 500 percent increase. Of the \$109,700,000 specifically appropriated for United States Forces—Afghanistan (USFOR-A) information operations programs in fiscal year 2009, only \$63,400,000 was obligated. The remaining \$46,300,000 (42 percent of the appropriation) was used by CENTCOM and the Army for other purposes in Afghanistan. The large increase in the funding requested and the ability of CENTCOM to execute this funding based on its prior year execution is of concern. Accordingly, the Under Secretary of Defense (Comptroller) is directed to provide a classified quarterly report to the congressional defense committees on the obligation and expenditure of those funds requested and appropriated in Title IX of this Act, "Operation and Maintenance, Army" for CENTCOM's United States Forces—Afghanistan and External Information Program—Afghanistan information operation programs and activities. The report shall identify any of the funds provided that have been obligated or expended for other than information operation activities, or transferred either above or below the reprogramming threshold notification requirements, and the purposes for which the funds were otherwise used.

The recommendation makes the following reductions to the Department of Defense request for information operations and strategic communications programs:

ARMY AND AIR FORCE EXCHANGE SERVICE

There is deep concern that Army and Air Force Exchange Service (AAFES) decisions to construct new restaurants will negatively impact locally-owned restaurants of the same franchise in the community. Such actions, especially in areas with economic con-

ditions that cannot support multiple restaurants of the same franchise, are harmful to the community. As partners with the community, the Department should consider these implications when making decisions about building new retail, restaurant or concessions services on an installation. Accordingly, the Department is directed to report

to the congressional defense committees within 90 days after enactment of this Act on the decision process to open new AAFES restaurants at Fort Stewart, and what considerations were made to account for the potential impact of such openings on the locally-owned restaurants of the same franchise.

ACCOUNTABILITY OF COMMON ACCESS CARDS

House Report 111-230 on the Department of Defense Appropriations Bill, 2010 noted major problems cited by the Department of Defense Inspector General regarding Common Access Card abuses by contractors. A program has been established to provide secure credentials to contractors and is currently being tested at Fort Belvoir, Virginia. These steps to address the force protection deficiencies cited by the Inspector General are encouraging and the Department should work to continue to improve the process for issuing Common Access Cards and to im-

prove the security of Department of Defense facilities.

JUNIOR RESERVE OFFICERS' TRAINING CORPS

The Junior Reserve Officers' Training Corps (JROTC) helps instill the essential qualities of character, citizenship, and fitness in its participants. The Department is commended for JROTC's proven track record of developing leadership potential, logical thinking and enhanced oral and verbal communication skills. JROTC's valuable role is an outlet through which its participants remain engaged, dedicated and disciplined in

their academic and extracurricular endeavors. JROTC's emphasis on the importance of high school graduation, college attendance, and other advanced educational and employment opportunities which contribute to a successful future is to be applauded. In order to extend and enhance the benefits of this invaluable program, the recommendation provides \$12,000,000 above the budget request only for a pilot program of JROTC units that would expand the scope and availability of this program in localities that desire to participate in such a program.

DEFENSE INFORMATION SYSTEMS AGENCY

Funding for the Senior Leadership Enterprise (SLE), in the amount of \$55,924,000 is restored following a briefing by representatives from the Defense Information Systems Agency (DISA). It is concerning that DISA failed to include any information on SLE in either the classified or unclassified budget justification documents. Further, DISA failed to respond to repeated requests for information on SLE prior to the House markup of the fiscal year 2010 Defense Appropriations bill. Because DISA's request for this new program lacked any budget justification or explanation, the House declined to fund the request. The Director, Defense Information Systems Agency is urged to review the organization's legislative affairs operations to ensure more responsive, effective communications with Congress in the future.

SECURITY AND STABILIZATION ASSISTANCE
(SECTION 1207 AUTHORITY)

The recommendation includes \$97,090,000 for the Security and Stabilization Assistance Program. It is not anticipated that additional Department of Defense resources will be provided to this program in the future. The recommendation is \$100,000,000 below the budget request, which is similar to the amount recommended for the Complex Crises Fund and Transitions Initiatives in the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2010. The Complex Crises Fund was recently created to provide the United States Agency for International Development (USAID) and the Department of State with increased resources and flexibility to respond to urgent requirements, in much the same manner and for similar purposes as projects funded under section 207. The establishment of the Complex Crises Fund will enable USAID and the Department of State to meet emergent re-

quirements that fall under their purview without relying on the Department of Defense. The \$97,090,000 recommended for Security and Stabilization Assistance is provided as a bridging mechanism until the Complex Crises Fund is fully implemented. Although future Security and Stabilization Assistance projects should be funded in USAID and Department of State budget requests, the Secretary of Defense, the Director, USAID and the Secretary of State are directed to maintain and strengthen the interagency process created from the section 1207 program when formulating, reviewing, and approving future projects that would have been funded through section 1207.

BRIGADE BASING REMEDIATION

The House report expressed concerns regarding the impact on local communities following a decision by the Secretary of Defense to reverse the planned growth in the number of Army Brigade Combat Teams (BCT) from 45 to 48. The report called for in the House report on efforts by the Department to mitigate the impact of this decision is of great interest, and the Department of Defense is expected to act promptly to prepare this report.

OFFICE OF THE UNDER SECRETARY OF DEFENSE
(COMPTROLLER) AND CHIEF FINANCIAL OFFICER

The recommendation provides \$2,348,000 for the Office of the Under Secretary of Defense (Comptroller) and Chief Financial Officer for the costs associated with the recruitment, hiring, training, retention and pay for additional Federal employees to improve fiscal management and oversight. The Department is strongly urged to exempt the Office of the Under Secretary of Defense (Comptroller) and Chief Financial Officer from internal Department headquarters personnel ceilings if necessary to ensure proper fiscal management and budget oversight.

COMMISSION ON WARTIME CONTRACTING

The recommendation includes an additional \$3,200,000 for the Commission on Wartime Contracting, providing a total of \$12,300,000 for Commission operations in fiscal year 2010.

NATIONAL SECURITY SPACE OFFICE

The recommendation strongly supports an integrated national security space architecture planning function that provides strategic, senior-level decision-making within the Department of Defense with timely and cogent space system architecture alternatives. Therefore, the recommendation provides \$7,000,000 for the National Security Space Office (NSSO) and transfers the management and tasking to the Under Secretary of Defense for Acquisition, Technology, and Logistics (USD (AT&L)), Space and Intelligence Office (SIO). This new arrangement will accomplish the original intent of the office as the Department of Defense's space architecture planning organization. Therefore, the USD(AT&L)/SIO is directed to revise the NSSO charter and provide a roadmap and goals to the congressional defense committees within 180 days of enactment of this Act on how this office will be used in future space system architecture planning.

MILITARY VOTING

A number of new authorities have been established in the National Defense Authorization Act for Fiscal Year 2010 with regard to military voting. The Department of Defense is expected to use the necessary resources to implement these new requirements and to ensure that uniformed servicemembers, their family members, and overseas citizens have the full opportunity to vote, particularly at a time when so many military personnel are serving in combat areas.

**ARMY NATIONAL GUARD RECRUITING AND
ADVERTISING**

The Senate reduced funding to Sub-activity Group 434, Other Personnel Support, based on unjustified growth in recruiting and advertising between fiscal year 2009 and fiscal year 2010. Since the time of that proposed reduction, the Army National Guard has adequately justified the budget request for re-

cruiting and advertising. The reason for the skewed original analysis was attributed to the amount of funding the Army National Guard realigns into Sub-activity Group 434 in the year of execution. In fiscal years 2007–2009, the Army National Guard realigned between \$100,000,000 and \$200,000,000 each year into recruiting and advertising. Because the Army National Guard has had flexibility to

move a large amount of funding in the past, the recommendation includes an undistributed reduction to Operation and Maintenance, Army National Guard due to the migration of funds from other sources into recruiting and advertising. New prior approval reprogramming guidelines for the Army National Guard are addressed in the operation and maintenance overview.

194TH REGIONAL SUPPORT WING

In fiscal year 2010, the Air National Guard had planned to eliminate 98 essential billets from the 194th Regional Support Wing. The National Guard Bureau and the Air National Guard 194th Regional Support Wing are currently in negotiations to resolve the matter but have yet to reach final resolution. For this reason, the Secretary of Defense is directed to retain all of the billets that existed in fiscal year 2009 for the remainder of fiscal year 2010. Additionally, the Chief of the Air National Guard is directed to provide a report on the long term plans for those billets that had been proposed for elimination in fiscal year 2010. The report shall be provided to the House and Senate Committees on Appropriations not later than May 15, 2010. The Committees plan to reexamine this issue as part of the fiscal year 2011 budget consideration and urge both the National Guard Bureau and the 194th Regional Support Wing to make a good faith effort to reach a fair and reasonable solution.
