

Joint Training Information Management System (JTIMS)

User Advisory Group (UAG) Meeting

LTC Daniel Ray
Joint Staff J7/JETD
JTIMS Program Manager
28 September 2011

JTIMS UAG Agenda

1300 – 1330

Welcome

- Training Assessment/Analysis
- JTIMS Development Timeline
- Deployment Summary

LTC Dan Ray

1330 - 1400

JFCOM Disestablishment

- HITR Submission

LTC Dan Ray

1400 – 1500

JTS Execution Process

- Observations/Evaluations
- Recommended Timeline

Mark Cooney

1500 - 1530

Force Requirements

- Joint vs Service Events
- Subordinate Force Requests

Mark Cooney

1530 - 1630

V7.1 Capabilities Review

Mark Cooney

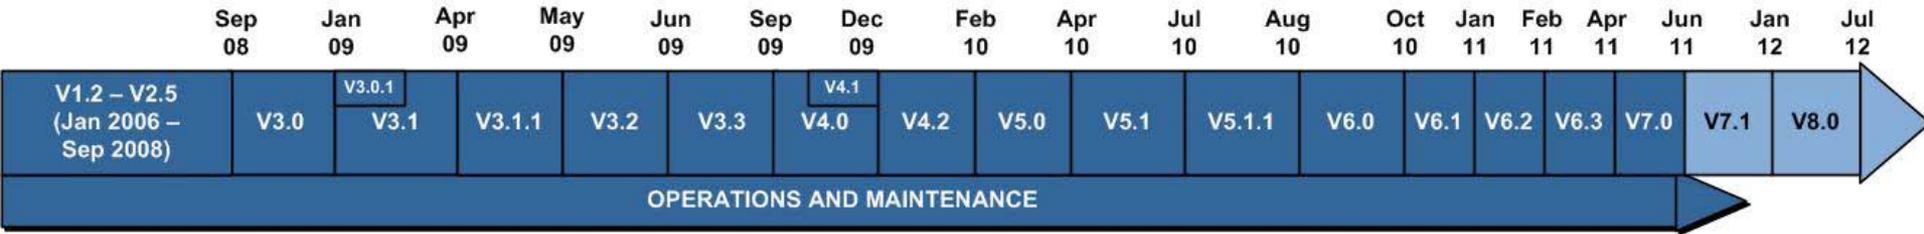

1630 – 1700

JTIMS Issue Deck

LTC Dan Ray

JTIMS Development Timeline

Major Milestones

- 17 Jan 06 - v1.1 Deployed
- 30 May 06 - v1.2 Deployed
- 24 Oct 06 - v2.0 Deployed
- 19 Dec 06 – v2.1 Deployed
- 19 Mar 07 - v2.2 Deployed
- 22 May 07 - v2.2 NIPR Deployed
- Oct 07 – v2.3 Deployed
- Apr 08 – v2.4 Deployed
 - July 08 –v2.4.1 Deployed
- Sep 08 –v2.5 Deployed
- Jan 09 – v3.0 Deployed
- 6 Apr 09 – v3.1 Deployed
 - 11 May 09 - v3.1.1
 - 1 Jun 09 - v3.1.2
- 15 Jun 09 - V3.2 Deployed
- 9 Sep 09 – v3.3 Deployed

Major Milestones

- 2 Dec 09 – v4.0 Deployed
 - 16 Dec - V4.1 Deployed
 - 4 Feb 10 – v4.2 Deployed
- 14 Apr 10 – v5.0 Deployed
- 2 Jul 2010 - V5.1 Deployed
- 4 Aug 2010 – V5.1.1 Deployed
- 27 Oct 2010 - V6.0 – Deployed
- 26 Jan 2011 – V6.1 – Deployed
- 23 Feb 2011 – v6.2 – Deployed
- 20 April 2011 – v6.3 Scheduled
- 4 May 2011 - V6.3.1 Deployed
- 15 June 2011 – v7.0 Deployed
 - 3 Aug 2011 – v7.0.1 Deployed
 - 28 Aug 2011 – v7.0.2 Deployed
- Jan 2012 – v7.1 Scheduled
- Jul 2012 – vX.X Scheduled

JTIMS Deployment Summary

v6.3 released 20 Apr 2011

- Real-time JTIMS/DRRS integration via Messaging
- Ability to import/export files between JTIMS Lite and Enterprise

v6.3.1 released 4 May 2011

- Minor updates to adjust the amount and location of logging to enhance messaging.

v7.0 released 15 Jun 2011

- Provide User Group Leads/Event Team Leads/Event Managers the ability to override a SMEB Determination of "No" with supporting override comments.
- Provide a SMEX Executive Overview Report - generated in .ppt format.
- Reformat the SMEB Wizard so all "SMEB Exemption" questions appear on the first tab.
- Provide the ability to add, deactivate, edit, and reorder questions in each section of the SMEB Questionnaire.
- New SMEB Exemption report. This report provides a summary of events and the associated SMEB question(s) that make the event exempt from a SMEB.

JTIMS Deployment Summary

v7.0 released 15 Jun 2011 (continued)

- Provide Event Team Lead's the ability to notify the JS J7 SMEB Coordinators when the Event SMEB Executive Overview is posted to the attachments tab.
- Provide J7 System Administrators the ability to import legacy JMSEL v2.6 exercise data
- Add the "Recommended Source" column to the Manage Force Requirements list for a specific event.
- Require "Comments" from the force provider when force request is returned and not sourced and display FP comments when viewing the status of the Force Request.
- Add a new Event field to capture the benefits of conducting the event (on the Create Event page).
- Generate Force Tracking Numbers (FTNs) when the force request is "sent" to the Force Provider.
- Provide the ability for Force Requestors/Providers to mass edit Event Force Requests/Provider fields.
- Provide the ability to tag an exercise by CJCS Priority and Objective (new required fields are located on the Event Details tab).

JTIMS Deployment Summary

v7.0.1 released 3 Aug 2011

- Event Web Service Integration with TREX (AFRICOM/EUCOM TSCMIS)
- JMSEL Concept Map Group by Filter
- EUCOM resolution for “Expand All” Link for Events
- ETA link error

v7.0.2 released 28 Aug 2011

- Copy Inject Security Classification
- STRATLIFT Transportation Rate updates
- Update to METL Sync

JFCOM Disestablishment

JFCOM Disestablishment

USJFCOM JTIMS User Group – Members

- Member list has been updated and active users transferred to the Joint Staff J-7 User Group
- Event/Exercise Data migrated to Joint Staff J-7 User Group

High Interest Training Requirements (HITRs)

- Commands will submit HITRs to Joint Staff J-7 (in lieu of USJFCOM)
- Joint Staff J-7 will review and nominate to CJCS User Group
- Nominated HITRs will reside in a new CJCS User Group

Event/Exercises

- Migrated to Joint Staff J-7 User Group

Force Requirements

- Manage Force Assignments migrated to Joint Staff J-3 User Group
- Commands will identify Joint Staff J-3 on all future force requirements for Joint Training Events

JTS Execution Phase

Execution Phase Discussion

Issue: Do tools/systems (JTIMS/JLLIS) facilitate the application of lessons learned/exercise observations into future events during the exercise planning process; and the integration of issues into resolution processes?

Discussion:

- How well are we as the joint training community using JTIMS, our joint systems of record to document observations of training and to better inform our joint training/exercise/learning processes with our experiences and lessons learned?
- If joint organizations are not using JTIMS to manage their joint training programs, why not? Are software modifications needed?
- How should JS J7 address performance, technological and policy/standards issues to raise the level of JTIMS utilization?

Execution Phase Discussion

Issue: Do tools/systems (JTIMS/JLLIS) facilitate the application of lessons learned/exercise observations into future events during the exercise planning process; and the integration of issues into resolution processes?

Discussion

- How could we as a community raise the level of compliance in JTIMS utilization by a measurable amount?
- Who validates an observation as an issue to be resolved through a formal process? The CCMD J7? A contractor? An O-4/O-5 staff officer?
- What are the obstacles to implementing a standardized schedule for the observation vetting, resolution and elevation (from joint training program to joint lessons learned program) process?

JTS Process Recommended Timeline: Execution Phase

STARTEX

ENDEX

**PRE-STARTEX
- 30**
Collection Management
Plan in JTMS

- DAILY**
- Task Performance Observations (TPOs) in JTMS
 - Field Observations in JTMS
 - Daily Hot Wash

Hot Wash

**NLT
ENDEX + 1**
FAAR

**NLT
ENDEX + 5**
Training Proficiency Evaluations (TPEs in JTMS)

**NLT
FAAR + 10**
CDR's Summary Report (CSR) or variation in JTMS

- NLT
ENDEX + 30**
- AAR
 - CDR's Evaluation Report
 - Event Training Assessment (ETA) in JTMS

- NLT
ENDEX + 45**
- Validated Observations marked in JTMS (export file)
 - Validated JTMS observations imported to JLLIS

Timeline applies to:

- Chairman Exercise Program (i.e. Positive Response)
- Joint Exercise Program Events

Force Requirements

Force Requirements

Force Requirements

- Joint vs Service Events
 - Joint Events will display Joint Force Providers
 - Service Training Events will display the Service Force Providers (FORSCOM, ACC, FFC, MARFORCOM)
 - Only opportunity to select is during the “Create Event” process.
- Subordinate Force Requests
 - Allows components the ability to create an event and submit Force Requirements to higher headquarters (Combatant Command)
 - Minimizes the number of “duplicate” events
- New Requirements
 - Provide ability for Combatant Commands to “send” force requests to component organizations to conduct feasibility of support.

V7.1 Design Concept Review

JTIMS V7.1 Requirements

MSEL REQUIREMENTS

JTIMS1050	Provide the ability for users to export the MSEL Summary Report and the Implementor Summary Report results to Word and/or Excel.
JTIMS 1409	Provide access to MSEL Summary & Implementor Summary Reports from JMSEL Overview
JTIMS1418	Add a Fiscal Year filter and Show/Hide option to My Enrollments
JTIMS1475	Provide JMSEL Managers & Analysts the ability to edit Inject Number and Inject Cell
JTIMS 1480	Provide JMSEL Managers the ability to assign the same color to multiple items
JTIMS1503	Expand the Message/Script textbox to fit the width of the Inject page and display a larger view of the Message/Script textbox
JTIMS1504	Provide JMSEL Managers the ability to add up to 8 additional custom statuses
JTIMS1514	Provide JMSEL Managers access to the "JMSEL Overview" page within Manage Scenarios tabs
JTIMS 1520	JMSEL Status Report Enhancements
JTIMS1525	Update the "Available Users" and "Selected Users" boxes on the Edit User Assignments page to display 25 names before a scroll bar appears

JTIMS V7.1 Requirements

MSEL REQUIREMENTS

JTIMS1551	Concept Map Enhancements
JTIMS1554	Format as USMTF Enhancements
JTIMS1558	Standardize navigation and links in JMSEL Overview Example: Calendar
JTIMS1576	The system should sort themes numerically, then alphabetically on the Manage Themes and Inject Detail page
JTIMS1587	When searching for TOs to link to injects, the system will sort TOs by TO ID. The user may re-sort the results by Theme, Focus, Method-Mode and Source.
JTIMS1657	The system will no longer require JMSEL Managers to enter a Unit when adding or editing a Cell
JTIMS1658	Provide JMSEL Managers & Analysts the ability to search and select JMSEL v2.6 events to copy data from for new scenarios and events in JTIMS

EVENT REQUIREMENTS

JTIMS1250	Re-label the sponsoring and scheduling commands
JTIMS1383	Event Cancellation Reason

JTIMS V7.1 Requirements

EVENT REQUIREMENTS

JTIMS1486	Add Service Line Item # to US DoD Force requests
JTIMS1644	Add Funding Amount to US Gov't force requests
JTIMS1663	Provide ability to copy associations to JTP Training objectives during event copy

METL REQUIREMENTS

JTIMS1483	<p>Redesign the METL view so that Subordinate Unit and Command-linked Tasks selected in a higher organization's METL appear in the command/organization's METL Views.</p> <ul style="list-style-type: none">•If the Mission/MET is from an external mission, the system will display a light grey background at the intersection of the Mission/MET and the user will be able to view the TPA Details.•If the Mission/MET is from both a Command mission and an external mission, the system will display the appropriate color and letter rating for the task/command mission combination and indicate that there are TPA ratings from external missions.
-----------	---

TO LIBRARY REQUIREMENTS

JTIMS1642	Provide users the ability to export the Training Objectives Library Search Results to MS Excel after they have searched the TO Library (available from TO Library Pop-Up Window and Manage TO Library Search Results)
-----------	---

JTIMS V7.1 Requirements

ASSESSMENT REQUIREMENTS

JTIMS1428	Update TPA
-----------	------------

REPORT REQUIREMENTS

JTIMS1641	Users need the ability to display JELC Milestones in the Event Details query
-----------	--

Issue Review

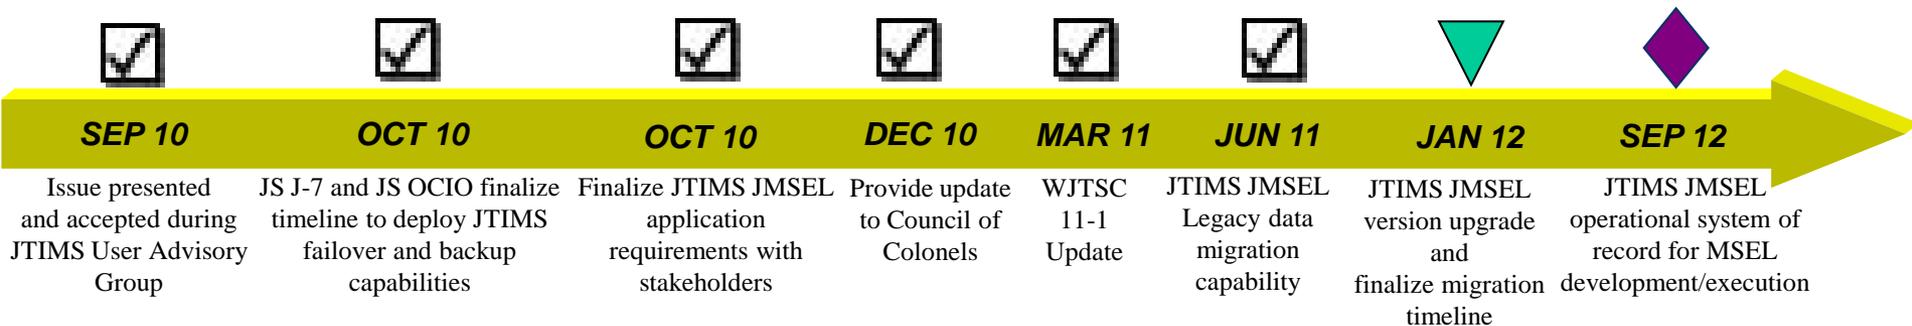

- ***10-012 – JTIMS JMSEL***
- ***10-013 – JTIMS and Unclassified DRRS Integration***

Joint Training Information Management System (JTIMS) Joint Master Scenario Event List (JMSEL)

Briefer: LTC Ray

- **Issue 10-012:** Transition from legacy JMSEL v2.6 to JTIMS JMSEL Enterprise.
- **Discussion:** Transition plan discussed during JTIMS UAG, WJTSC 10-2. Legacy JMSEL v2.6 data migration to JTIMS JMSEL (Enterprise); enhanced system availability and support; and costs associated with maintaining a separate JMSEL standalone environment. All commands and Combat Support Agencies agree that community needs to migrate to JTIMS JMSEL (Enterprise) but some expressed concerns that supporting organizations rely heavily on JMSEL v2.6.
- **Endstate:** Complete data migration from legacy JMSEL v2.6 to JTIMS JMSEL (Enterprise); JTIMS failover and backup capabilities deployed, tested and validated; JTIMS JMSEL application enhancements developed and deployed in FY11; and a timeline established, in coordination with commands/agencies, for shut down legacy JMSEL v2.6.
- **POA&M:** JS J-7 develop a timeline and plan to import legacy JMSEL v2.6 data into JTIMS JMSEL (Enterprise); complete hardware/architecture improvements, and complete deployment of JTIMS JMSEL application enhancements in FY12 . Jan 2012 conduct JTIMS JMSEL training with stakeholders.
- **OPR:** JS J-7 JETD; **OCRs:** Combatant Commands, CSAs, Services

JTIMS & Unclassified Defense Readiness Reporting System (DRRS) Integration

Briefer: LTC Ray

- **Issue 10-013:** Build METL capability requirement on NIPRNET.
- **Discussion:** DRRS NIPRNET shutdown approx. April 2010. JS J-7 discussed impacts with OSD Readiness Program Office: NORTHCOM requires capability for integration with NGB, JFHQ's, and DHS. JTIMS could incorporate the Build METL capability, however development timeline will be impacted along with additional costs. JTIMS Coalition environment dependent on a DRRS Build METL module to support command unclassified combined training events (PACOM, EUCOM).
- **Endstate:** Build METL module and Task Management capability deployed in a NIPRNET environment
- **POA&M:** OSD P&R deploy NIPR BuildMET /Task Management Module. JS J-7, in coordination with the commands, develop a timeline to reestablish Build METL/Task Management NIPRNET capability.
- **OPRs:** JS J-7 JETD and OSD; **OCRs:** Combatant Commands, CSAs, Services

SEP 10

Issue presented and accepted during JTIMS User Advisory Group

OCT 10

Commands provide JS J-7 GO/FO-level input to submit to OSD

NOV 10

DJ-7/VDJ-7 meet with OSD to discuss a way ahead and viable course of action.

DEC 10

Provide update to CE2 SLT

MAR 11

WJTSC 11-1 Update

TBD 11

DRRS Build METL deployed

The screenshot displays the JTIMS Event Calendar interface. At the top, there are navigation tabs: Home, JTP, Events (selected), Execution, Assessment, and Reports. The user is logged in as 'Reed, Dennis' and the selected user group is 'US PACOM'. The main content area is titled 'Calendar' and shows the 'Event Calendar' view. It includes filters for 'DATE RANGE' (Fiscal Years: FY07 to FY09, Quarters: Q1 to Q4), 'VIEW' (My User Group Events, All User Group Events, Published Only), and 'DISPLAY' (Show Employment Dates, Show Inclusive Dates, Show Conferences, Group By Event Names). A 'Filter' button is also present. The calendar grid shows events for October 06, November 06, December 06, and January 07. Events are listed with their dates and status (e.g., 'ARCTIC SAREX 09', 'ARDENT SENTRY 07', 'AUSTERE CHALLENGE 07', 'BALIKATAN 07', 'BRONZE ARROW 08'). A 'Color Key' at the bottom indicates that green boxes represent 'Employment Date' and red boxes represent 'Cancelled'. A 'Return to Events Home' button is located at the bottom right of the calendar grid.
